Dear Sir,

Following the project to transfer your activities to a new site and a visit to your premises on 26/01/2026, we have acknowledged the impossibility of carrying out an audit to renew your certification according to PED 2014/68/EU Annex 1 § 4.3 and AD Merkblatt AD W0 (certificate n° DGR-0036-QS-W-IS-AN1-SBR-3854888 valid until 07/07/2026) before the transfer of said activities. During this visit, we were also able to see the continuation of activities in the old premises under the usual conditions.

As the transfer will take place between July and October 2026 and considering the fact that the activities related to the scope of validity of the certificate will continue identically on the new site, we note the following points:

- A renewal audit is scheduled for November 12 and 13, 2026 in your new premises.
- The validity period of the current certificate is extended until 31/12/2026.

We ask that you keep us informed of any changes to your transfer schedule as well as any changes to the manufacturing processes if necessary.

We remain at your disposal for any further information.

Ecullly on 06/07/2026
